THE APPRAISAL OF CONTENT IS TENTATIVE.

(FOR KEY SEE REVERSE)

- The newly erected power plant at Skierniewice (N51-58, E20-09) exclusively supplies
 the Warsaw-Lodz electrified railroad line.
- 2. The power station consists of a single, one-story building which covers an area of 200 square meters. Outside the building a large number of transformers are 25X1 visible.
- The main entrance is on ul. Mickiewicza. A high fence of wire netting surrounds
 the premises which are guarded by Industrial Guard sentries posted at frequent
 intervals along the entire fence.
- 4. The power plant has three substations in the area between Skierniewice and Warsaw. The substations are located at Radziwillow (N52-00, E20-17), Zyrardow (R53/P66), and Grodzisk Mazowiecki (N52-07, E20-38).
